

## Solution II

Glycerol	6.00	ml
Malachite green (2%)	6.00	ml
Whole egg	200.00	ml

1. Homogenize Solution II by stirring and filter through gauze. Mix solutions I and II, and sterilize at 90C for 60 min.
2. Comment: Commercial 1% Ogawa medium (Eiken or Nissui) is also available.
