

## VFA solution

Isobutyric acid	0.50	ml
2-Methylbutyric acid	0.50	ml
Isovaleric acid	0.50	ml
Valeric acid	0.50	ml
NaOH (0.1 N)	100.00	ml

Add volatile fatty acids to about 70-80 ml of NaOH solution and mix. Add NaOH solution to bring final volume to 100 ml. If not used the same day, filter-sterilize and store at 4C.
