

Main sol. J763

Trypticase soy broth (Oxoid)	30.00	g
Distilled water	1000.00	ml

1. Mix components thoroughly and autoclave. After cooling, adjust pH to 8.5 - 9.0 with sterile 20% sodium carbonate solution (autoclaved).
2. For preparation of solid medium, add 20.0 g/L agar.
