

95: SNA

Final volume: 1000 ml

Mail sol. C₉₅

Nutrient agar (Oxoid CM3)	28.00	g
Natural sea water (filtered)	500.00	ml
Deionized water	500.00	ml

Make up to 1 litre with deionized water. Steam for 30 minutes, ensuring homogeneity, then dispense as required. Autoclave at 15 psi and slope (tubes) prior to cooling.
