

97: SNA/5

Final volume: 1000 ml

Mail sol. C₉₇

Nutrient agar (Oxoid CM3)	28.00	g
Natural sea water (filtered)	200.00	ml
Deionized water	800.00	ml

1. Make up to 1 litre with deionized water. Steam for 30 minutes, ensuring homogeneity, then dispense as required. Autoclave at 15 psi and slope (tubes) prior to cooling.
2. Alternatively use "Ulramarine" Synthetica sea salts 17.5 g
